

FINANCIAL CONTROLLER

Our client is a successful business based in Carrickfergus, County Antrim, Northern Ireland. The business has developed into one of the UK's leading wholesale suppliers to the pet, aquatics and ornamental garden trade throughout Ireland. Formed in the early 1980's and locally owned the company has an established customer base.

Due to the retirement of the existing financial controller the company is offering an exciting opportunity for the position of Financial Controller to further develop the company's business opportunities.

Responsibilities

- Reporting financial information to the Board of Directors
- Development of the accounting and internal control systems
- Contribution to the strategic development of the company
- Management of a highly motivated accounts team
- Controlling budgets, forecasting and key performance indicators
- Treasury management

Attributes

- Preferably qualified member of a recognised accountancy body with at least three years experience at a senior accounting level preferably within the retail or wholesale sectors and/or a financial organisation
- Experienced in the application of computerised accounting systems
- Self motivating, organised and pro-active in provision of management information
- Effective communication skills and an astute commercial acumen.

The remuneration package will be commensurate with ability and experience.
